situations\$ Students will obtain scientific knowledge which can be applied to many different industries allowing them to potentially access many different sectors\$

The Living Environment

- How the main conditions, which allow early life to develop and survive on planet Earth, came about
- How the presence of life on earth has brought about environmental change

	<ul style="list-style-type: none"> - .one depletion - The hydrosphere - (ineral resources - /iogeochemical cycles 		-
